

**STATEMENT OF PURPOSE****RS23360C1**

The purpose of this legislation is to reduce the number of hours required to be a cosmetologist while still allowing schools to teach additional hours as a business decision if they so choose.

**FISCAL NOTE**

There is no direct fiscal impact to the general fund. However, getting students into the work force sooner will have a positive impact to the state's revenues and students would likely have less student loan debt with a shorter program.
